

## Fisher Textiles Adds Printable Black Back Soft Knit to Grand Format Lineup

Indian Trail, NC (November 28, 2017) - Fisher Textiles, the leading supplier of fabrics for digital printing, is pleased to present its newest fabric for soft signage silicone edge graphics and roll up banner stand applications, GF 4019 Nirvana B.O.B.<sup>®</sup>, compatible with transfer Dye Sublimation and UV Curable printing.

The standout feature of this soft knit fabric is the coated black back, which provides a built-in liner for finished applications, and promotes cost savings in material and labor. Nirvana is ideal for retail advertising and trade show exhibit environments. It has a bright white face with a white point that matches Fisher's current soft knit and heavy knit materials. It also exhibits adequate stretch for a proper fit in framing systems. It is stocked at 126 inches wide, weighs 7.7 oz/yd<sup>2</sup> and is flame retardant, meeting NFPA 701 and German DIN 4102-1 (B1) fire standards.

Contact Fisher Textiles at 800-554-8886 or [info@fishertextiles.com](mailto:info@fishertextiles.com) for more information.
